

The background of the slide features a complex, abstract network diagram. It consists of numerous nodes of varying sizes and colors (black, blue, and grey) interconnected by a web of thin, light grey lines. Some nodes are highlighted with larger, concentric circles in blue or black. The overall aesthetic is modern and technological, suggesting themes of data, connectivity, and artificial intelligence.

AI-ENHANCED CONTENT DISCOVERY: INTRODUCING SCITRUS

Wei Zhang
E-Resources & Collections Analysis Librarian

PRE-SESSION POLL

1. What is your affiliation (undergrad, grad, faculty or staff)?
2. How do you keep up to date with the latest developments in your research area?
3. What is the most frustrating part in keeping current?
4. Do you use any citation management software? If yes, please specify.
5. Are you familiar with or do you have an ORCID?

WHAT IS SCITRUS?

- Released in October 2019 by Atypon
- Free scientific content discovery service, which
 - aims to help researchers combat information overload
 - delivers real-time, individualized research feed
 - puts artificial intelligence and machine learning to work
 - searches 30,000 sources daily
 - allows researchers less time searching and more time reading

WHAT ARE THE BENEFITS?

- Real time
- Save time
- Improved reading experience

Coronavirus Pandemic Special Edition:

<https://www.scitrus.com/special/novel-coronavirus-outbreak>

WHAT ARE THE FEATURES?

- Get on board fast
- Customize your feed
- Discover now, read later
